

SCI Diversified Income Fund of Funds

A2 Class

30 June 2026

Issue date: 24 July 2026

Fund Objective

The objective of this fund of funds portfolio is to offer a low risk, liquid investment which will generate returns predominantly in the form of dividends and capital growth. The total return of the fund will aim to exceed the average after-tax yield normally received from money market portfolios.

Fund Strategy

This unit trust has a conservative investment mandate that will follow a risk profile focused on capital preservation.

The fund invests in a spectrum of collective investment scheme portfolios investing in non-equity preference shares, other non-equity securities (including money market instruments, bonds, debenture stock and debenture bonds and notes) as well as the equity and real estate markets, offering a low-risk return.

The fund may have an effective equity exposure of up to 5% and a maximum effective property exposure of up to 15% (including international assets). The fund may also invest in listed and unlisted financial instruments for the sole purpose of hedging exchange rate risk.. The fund focuses on capital preservation and on enhancing the after-tax returns for investors to provide a higher total after-tax return than enhanced cash funds.

The Sanlam Group is a full member of the Association for Savings and Investment SA. Sanlam Collective Investments (RF) (Pty) Ltd is a registered and approved Manager in Collective Investment Schemes in Securities. Collective investment schemes are generally medium- to long-term investments. Past performance is not necessarily a guide to future performance, and that the value of investments / units / unit trusts may go down as well as up. A schedule of fees and charges and maximum commissions is available from the Manager on request. Additional information of the proposed investment, including brochures, application forms and annual or quarterly reports, can be obtained from the Manager, free of charge. Collective investments are traded at ruling prices and can engage in borrowing and scrip lending. The Manager does not provide any guarantee either with respect to the capital or the return of a portfolio. Collective investments are calculated on a net asset value basis, which is the total market value of all assets in the portfolio including any income accruals and less any deductible expenses such as audit fees, brokerage and service fees. Forward pricing is used. Performance is based on NAV to NAV calculations with income reinvestments done on the ex-div date. Performance is calculated for the portfolio and the individual investor performance may differ as a result of initial fees, actual investment date, date of reinvestment and dividend withholding tax. The performance of the portfolio depends on the underlying assets and variable market factors. Lump sum investment performances are quoted. Source: Money Mate. The portfolio may invest in other unit trust portfolios which levy their own fees, and may result in a higher fee structure for our portfolio. All the portfolio options presented are approved collective investment schemes in terms of Collective Investment Schemes Control Act, No 45 of 2002 ("CISCA"). The fund may from time to time invest in foreign countries and therefore it may have risks regarding liquidity, the repatriation of funds, political and macroeconomic situations, foreign exchange, tax, settlement, and the availability of information. The Manager has the right to close any portfolios to new investors to manage them more efficiently in accordance with their mandates. The portfolio management of all the portfolios are outsourced to financial services providers authorized in terms of the Financial Advisory and Intermediary Services Act, 2002. The investments are managed by Sanlam Specialised Asset Management (Pty) Ltd (FSP 22877) and TBI Investment Managers (Pty) Ltd (FSP 42968), authorised Financial Services Providers under the Financial Advisory and Intermediary Services Act, 2002.
